Inspector will need access to area to be inspected, if house is locked please provide lock box code, or key location and gate code if needed:

Plumbing, Gas and Electric Rough-in & Final Stickers to be placed on electric panel. Trade Rough-in inspections are to be performed before Building is insulated. Trade Finals are to be performed before Building Final. Gas Inspections require a 25 psi air test on piping. Approval is based on Visual Inspection of readily accessible area only. Changes or alterations to project voids prior approval. Electric Service inspections are to first disconnect only.

Please e-mail this completed form to jcecil@msn.com You can type the required information directly to this form, or Fax to 301-387-0379, for an inspection at least 48 hours in advance. Texting is not reliable, so I may not receive your request. Allan Cecil 240-381-6231
