RE: Invitation to Bid #26-0812 Garrett County Solid Waste Scale Replacement Bid

Please note the following clarification to **Invitation to Bid #26-0812 Garrett County Solid Waste Scale Replacement Bid** resulting from a question received from an interested bidder:

1. What is the desired profile height of the scale?

Answer: We would like the new scale a finish height of 20"

2. The spec'd Rice Lake 682 indicator will not work in its standard configuration. This requires dual serial output to run the management system the landfill has. This is not called out in the spec. Is this to be allowed for in the pricing?

Answer: Yes, we have to have an indicator that will work with our program (waste works)

3. Spec only allows for 25' approach ramps, this changes depending on the profile height of the scale. What slope is the spec for the approach ramps as it is not called out in the bid?

Answer: 3/4" per foot

Please acknowledge receipt of Addendum 1 by initialing the appropriate section on the Signature to Bids Page of the bid package.
