RE: Invitation to Bid #26-0930 Garrett County Administration Building Sidewalk Project

Please note the following clarification to **Invitation to Bid #26-0930 Garrett County Administration Building Sidewalk Project** resulting from a question received from an interested bidder:

1. Are we required to replace hot mix, cold patch or nothing in areas where the concrete borders black top?
We typically cut these areas back 6-8" to allow for forming.

Yes these areas will need to be patched using hot mix.

2. Are we required to grade, seed and mulch areas where the concrete borders grass or mulched beds?

Yes

3. Can we reuse railings on the steps being replaced?

Yes

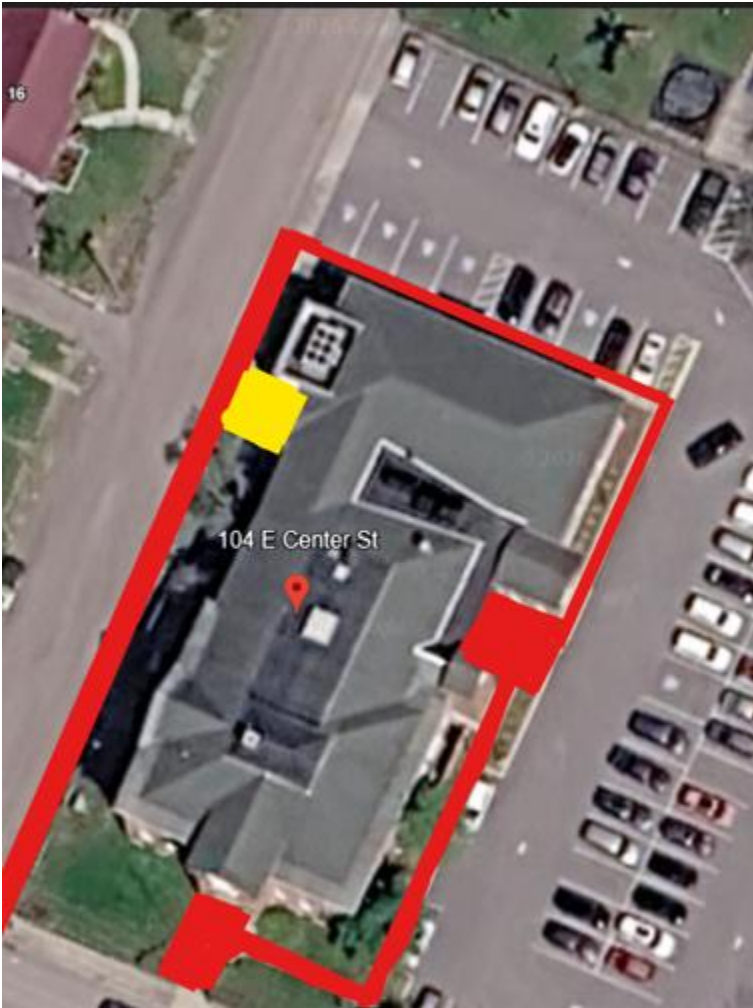

4. Will Garrett County locate all private utilities in areas where bollards need to be placed?

Yes

5. Will this project start this fall or should we assume in the Spring and price for next year's rates?

Project can start this year if contractor has availability and the weather is appropriate, ground and air temperatures must be above 40 degrees during the pour and curing time (minimum 4 days), unless otherwise protected by blankets. No additives should be used for curing or freeze protection.

6. Area highlighted in Yellow was added to the scope of replacement at 104 E. Center Street (Community Action) location.

Please acknowledge receipt of Addendum 1 by initialing the appropriate section on the Signature to Bids Page of the bid package.
