RE: Request for Proposal #26-1008 Engineering Services
Friendsville Wastewater Treatment Plant Improvements

Please note the following clarification to **Request for Proposal #26-1008 Engineering Services Friendsville Wastewater Treatment Plant Improvements** resulting from a question received from an interested bidder:

1. Is flow monitoring data available for the existing sewer system?

Answer: WWTP flow data is available.

2. Can you provide a map or figure showing the extents of the collection system?

Answer: The available as-built drawings will be provided. No separate collection system map or figure is currently available.

3. Can you provide information on the size of the collection system, including the number of manholes, length of piping, and diameter of the sewers?

Answer: The County can provide the information available on the as-built drawings. No separate inventory or summary of the collection system is currently available.

4. Is the I&I study under Scope Item 3.4, Alternatives Development and Evaluation, part of this effort for the PER or to be included as an alternative for future work?

Answer: The I&I study should be included as an alternative for future work and is not part of the current PER effort.

5. If the I&I study is part of the PER, should it include flow monitoring and/or an SSES?

Answer: Not applicable. The I&I study is not part of the current PER effort.

6. Is a hydraulic model of the collection system included in the PER effort?

Answer: No. A hydraulic model of the collection system is not included in the PER effort.

7. Will as-builts be provided?

Answer: Yes. Available as-built drawings will be provided.

8. Will hourly data for the two collection system pump stations be provided?

Answer: Pump runtime data can be provided; however, the data is not currently available and will need to be collected

Please acknowledge receipt of Addendum 1 by initialing the appropriate section on the Signature to Bids Page of the bid package.
